

Curiosity Card #1

Use your observation skills to spot as many insects as you can. What do you notice about the time of day, weather and their habitat?

Curiosity Card #2

Can you make any connections about the biodiversity of the area and which creatures would be connected through a food chain or food web?

Curiosity Card #3

Find a tree that you will collect
'prints' from;

- * bark rubbing
- * plasticine imprint to use as a stamp
- * leaf print

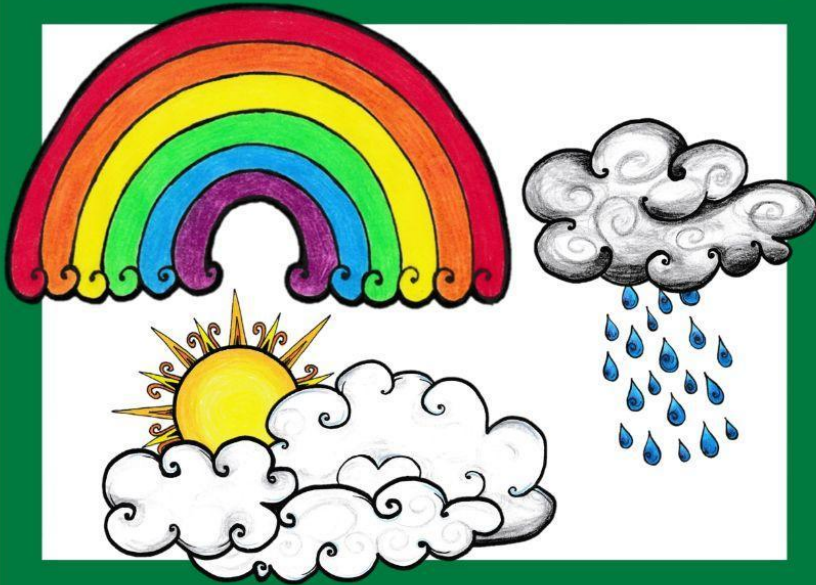

Curiosity Card #4

Take the perspective of one of the following and consider the impact of the changes to the land use

- * humans visiting the site
- * birds of the area
- * invertebrates that live in the creek

Consider the pros and cons of the current land use. What needs to be thought about to ensure the positive impacts continue? How can you be part of this future?

Curiosity Card #5

Record the weather at the same time, in the same place for a month and see if you can see any unexpected patterns. How would what you have noticed impact on plants?

Curiosity Card #6

Forest regeneration is an important part of conservation work. There are many projects throughout Aotearoa that the public can get involved in to be part of this conservation work.

Find out what projects or groups there are close to you.

What can you do to be involved or to contribute to their mahi?

Curiosity Card #7

Use a map of the area and consider;

- *what was the purpose of this map?
- *who was it created for and by?
- *does it reflect all perspectives?
- *what might be left out of this map?
- *if you redesigned the map to reflect iwi and tauwiwi perspectives what would the map look like then?
- *how could you make the map more accessible?

Curiosity Card #8

What does the name of the place mean?

Does it have more than one name?

Who bestowed the name/s?

What are the stories or the history of this whenua?

How can you communicate the stories in engaging or appealing ways?

Curiosity Card #9

If you were to 'recloak the whenua' in your community what would you begin with and who would you want to be part of the team to begin this mahi?

Curiosity Card #10

Create a bird flight path map to show how this site supports native birds to get from one place to another to meet their needs.

Make sure your map has

- *a compass showing where north is
- *a title that gives context to the place
- *a key & symbols that notes the important trees for different native birds
- *a key & symbols for the birds
